

## Ciclo de conferencias

- 22/01/19** *Where do your data fit in the European marine data landscape?*  
Belén Martín. Centro Tecnolóxico do Mar
- Ascidians under Ocean Warming and Acidification*  
Tiago Repolho. Marine and Environmental Sciences Centre, Universidade de Lisboa
- 05/02/19** *Hakes of the world: clarifying the phylogenetic status of five candidate species*  
María Fernández. Recursos Xenéticos Mariños, Universidade de Vigo
- 19/02/19** *ABS?, are you talking about my car's brakes?*  
Antonio Villanueva. Centro de Investigacións Mariñas, Universidade de Vigo
- 05/03/19** *The nature of palaeo climate change*  
Gianluca Marino. Xeoloxía Mariña e Ambiental, Centro de Investigacións Mariñas, Universidade de Vigo
- 21/03/17** *Climate variability and fishery resources in the Humboldt system. A look at the past from the sedimentary record.*  
Jorge Valdés. Universidad de Antofagasta, Chile
- 02/04/19** *Evolution of the oceans on Earth and Mars: the point of divergence*  
Elisabeth Losa. Enxeñaría Química, Universidade de Vigo
- 07/05/19** *Interaction between waves and coastal structures: from coastal protection to energy generation*  
Alejandro Crespo. Laboratorio de Física Ambiental EPHYSLAB, CIM-Uvigo
- 04/06/19** *Costs of learning in juvenile three spined stickleback*  
Náyade Álvarez. Ecoloxía Animal, CIM-Uvigo
- 18/06/19** *Of snails, crabs and waves: a tale of adaptation through the lens of genomics*  
Francesca Raffini. University of Sheffield, U.K.
- 02/07/19** *Invasive species, how to turn an ecological problem into an opportunity*  
Celia Olabarría. Ecoloxía Costeira, CIM-Uvigo
- 17/09/19** *Assessing the effect of oil spills on the dynamics of plankton community using a model*  
Jose González. Oceanografía Física, CIM-Uvigo
- 01/10/17** *Endocrine disruption by plastic additives in sea urchin, *Paracentrotus lividus**  
Pedro Campoy. Ecoloxía Costeira, CIM-Uvigo
- 15/10/19** *Why should we care about ocean turbulence?*  
Beatriz Mouriño. Oceanografía Biolóxica, CIM-Uvigo
- 07/11/19** *Size matters, at least speaking about phytoplankton*  
Cristina Fernández. Oceanografía Biolóxica, CIM-Uvigo
- 03/12/19** *Impacts of climate change on tropical tunas, how can we adapt an international fishery?*  
Iratxe Rubio. Future Oceans Lab, CIM-Uvigo

Lugar: Salón de actos da ECIMAT  
Hora: 11.00-11.40 h
